THE PEOPLE'S PAPER.

HERALD.

SALT LAKE

DAILY HERALD.

The HERALD enters upon the new year with better hopes and brighter prospects than it ever before enjoyed. The remarkable success of the paper in the past, as manifested by its large and steadily growing subscription list, its increasing advertising patronage and the expressions of goodwill towards the journal which greet us from all quarters, convinces the publishers that they are doing what they set out to do—namely, furnish a newspaper that the people would like, and therefore support. The HERALD, as in the past, will be the people's paper. Independent in a political sense, it will always be found on the side of the people, outspoken on questions affecting the rights of the masses; battling for local self-government and the largest liberty to individuals consistent with public good; laboring for a pure, honest and economical administration of government; treating public matters dispassionately and employing language calculated to enlighten the reason of men, rather than influence their passions. And working for peace and the development of the resources of the territory, instead of trying to create strife and retard progress. With our increased facilities for gathering news, both by telegraph and mail, the employment of a larger number of correspondents in different sections of the country, and the better arrangement of all the many details of the establishment, we confidently promise to make the SALT LAKE DAILY HERALD a better paper than ever.

SALT LAKE

SEMI-WEEKLY HERALD

This valuable and popular edition of the HERALD will continue to make its appearance twice a week during the year, and the same degree of progress and improvement that marks the Daily will be seen in its columns. No better newspaper can be found in the west for those people who are not blessed with daily mail facilities, than the SEMI-WEEKLY HERALD. It contains all the news, domestic and foreign, in a condensed and readable form. The design has been to make it combine the distinguishing characteristics of a commercial and home journal, and we believe that this has been successfully carried out. The SEMI-WEEKLY HERALD has certainly met with unexpected high favor at the hands of the people. It is proposed to make it even more popular than in the past by reducing the price to \$5.00 per annum, making it the cheapest semi-weekly paper in the west. The reduction in price does not imply a lessening of the quantity of matter published. Its columns will continue full of news and choice literature.

SALT LAKE

WEEKLY HERALD.

About the 1st of March, we will begin the publication of a Weekly Edition of the HERALD. The demand for such a paper has been very pressing during the past two or three years. The aim of the publishers will be to furnish a paper for those people who live off the main lines of travel and who are not accommodated with mail service often than once a week; to provide a newspaper for those who have only one day a week of leisure to devote to the pleasant and profitable employment of reading; to supply a suitable edition of the HERALD for sending abroad—a paper that shall faithfully and honestly represent this great and growing territory, with its many and important industries and its thrifty, enterprising people; to make a paper for the home circle and family friends, one that shall contain the news, and at the same time contain the essential elements of a literary, educational and industrial journal. In fact, our aim will be to make the WEEKLY HERALD a welcome visitor to the home, where it will be found a constant fund of instruction, entertainment and profit, to all members of the family. Besides the leading characteristics of the Daily, the Weekly will contain matter specially for the agriculturist, the stock-raiser, the miner, the mechanic, the kitchen and the household generally, and an important feature of its columns will be the well-chosen, entertaining and moral light literature. Nothing will be admitted in its columns that has not been carefully prepared and revised. The price will be only \$2 a year, a figure unprecedentedly low for a far west newspaper. We confidently predict for the success of the WEEKLY HERALD, and the efforts of the publishers will be to make the paper merit the popularity that it cannot fail to attain.

TELEGRAPHIC

THE MAINE RUSS.

Two Acting Governors, as well as Two Legislatures.

And Maine Row.

Augusta, 12.—The house committee to investigate the charges of attempted bribery met in representative hall. H. R. White was summoned to appear but did not respond. He declined to recognize the authority of the committee. SWANN and Harriman reiterated in substance their affidavits and statements in the house, with some additional particulars. Solon Chase testified that he advised SWANN to go ahead and get White to commit himself and the party, and other testimony was given but no new facts came out.

Augusta, 12.—At 1:45 the committee of the house to report questions to submit to the supreme court, submitted a series which it was voted to submit to the court. The questions are long. Both branches adjourned at 2:15 until Saturday, January 17, at 2 p.m.

Forty enthusiastic republicans came to the city last night by the Pullman train. Hale, in his remarks relative to the order submitting questions to the supreme court, said he represented the fact here did not intend to control the law did not give any one a right to rough-shod over any one as they might have done. The police, the judges, the courts, and great purpose intended in the order, and when the court decided the question the people of Maine would be satisfied. The question of organization, and it will be expected that everybody in the hall will accept it as laid down by the court.

The night of the capital passed very quietly, with a full guard on. The only irregularity this morning was when G. V. Martin attempted to pass the guard in defiance of the police regulations, and was summarily handled by the police. The furniture was very quiet about expressing an opinion of the events of last night. They seem surprised and entirely unwilling to converse upon the subject. Wallace E. White, whose card of denial of bribery has been published, has been summoned before the bribery committee but refused to appear. Following is his card:

To Henry Ingalls, Chairman of the Investigating Committee:
I have received your summons to appear before your committee, charged with an investigation of the alleged bribery of F. B. SWANN and Moses HARRIMAN. I decline to appear, for the reason that you are not competent to send for persons and papers, and not competent to administer a legal oath. Witnesses before you could swear to anything without incurring the hazard of prosecution for perjury. If SWANN and HARRIMAN had secured a bribe, they would naturally have kept it secret, and they would not put up a job they would be allured to likely to swear falsely. When I next meet them, I want it to be before a tribunal that has the power to send for persons and to administer punishment. Your house of representatives is illegally organized, or not organized at all, and if you have any doubt on the point, you shall be glad to have me arrest me for contempt, and then have the authority for your proceedings by a writ of habeas corpus before the supreme judicial court. If I am not sustained by that tribunal, I shall cheerfully appear before your committee.

(Signed) WALLACE WHITE.
The reported scheme of electing state officers and a governor has apparently been abandoned, both parties seeming willing to await the decision by the supreme court before proceeding further. LAUNSON, who claims to be acting governor, has as yet performed no official act that at all interferes with the prerogative of General Chamberlain. The house took recess until 2 p.m.

New York, 12.—The World, which has discontinued the movements of Garcelon in Maine from the beginning, says of the republican coup d'etat yesterday: "The republican coup d'etat yesterday of the state house of Maine, and counted in such of themselves as have no certificates 'on the face' of the returns. The only wonder is that republicans did not resort to it, and fusionists forces and guard against it, before the legislature met."

Vienna, 12.—The Presse is of the opinion that a collision between Russia and England is inevitable. The French says General Skobeleff recently declared at a banquet that Russia is on the eve of another national war.

Military information diversifies the stories of the unnatural concentration of Russian troops along the frontier of Austria.

Is an Empire Meant?

New York, 12.—The World prints a two-column letter from Charles O'Connor to the Democratic Club of Essex County, New Jersey, in which he speaks disparagingly of the republic and condemns both factions of the New York democracy, styling Kelly a local factionist and despising Tilden for his former servility to southern domination. He says he suddenly wheeled around in 1877 because of a merely personal disappointment. O'Connor puts his hope of liberty and prosperity in the collapse of our institution so completely as to give credence for the reconstruction of the republic on certain new lines, which he lays down.

Frank Leslie's Funeral.

New York, 12.—The funeral of Frank Leslie, the well-known publisher, took place this morning from Rev. Dr. Chapin's Church. Nearly all the persons employed in Leslie's establishment were present. The pall bearers were: Governor Rice, of Massachusetts; Sinclair, Towner, John McKim, Gen. Graham, B. S. Kimball, Isaac W. England, Whitelaw Reid, Justice Fair, Senator Anthony and Henry J. Gillan.

Poor Christine.

London, 12.—Private reports from Madrid of the Queen's state excite grave apprehensions. Since the attempt on King Alfonso's life, the Queen feels ill. He is ill, but musters strength enough to appear publicly, and then relapses. She cannot endure the King's absence. Her condition is the more serious because a hair is expected.

STRIKING MOBS.

Lawlessness in the North and South.

West Haverhill, Va., 12.—The military is expected here to quell the mob who are intimidating these miners who wish to work in the "Haw's" Nest Mine. The state troops will arrive here tomorrow.

Chicago, 12.—There was considerable excitement at the stock yards this morning owing to assaults made by union men, being unable to secure their old places in packing houses, but ed themselves going about the yards, abusing the non-union men, stoning them and striking them with sticks as they passed in and out the gate. About 400 in all were engaged in these outrages, and several of them were arrested and marched to the police station at the point of the revolver, followed by a shouting crowd of their friends. The most of the strikers and all the more reasonable ones are at their homes, but should the arrests continue, it is feared they will join in the trouble and cause bloodshed. The police authorities regard the situation as critical, and have stationed a large force to the stock yards.

While the mob of union men was attacking workmen stationed Andrew Deichman, on Haled street, this morning, he drew a butcher knife and stabbed Frank Gough, leader of the malcontents, in the back. Deichman was arrested and taken by the police into a street car, whereupon the mob nearly demolished the car with sticks and stones. The superintendent of police has ordered saloons in the vicinity of the stock yards closed for the present.

The Foreign Budget.

Rome, 12.—The Pope has summoned all German bishops to Rome to confer on the affairs of their respective dioceses.

Madrid, 12.—The minister of Colonies has promised Cuban deputies to present a scheme of economy reforms in Cuba to the chambers at the end of the present session or the commencement of the next.

Cape Town, 12.—The arrest of Herr Pretorius, president of the former republic of Transvaal, for high treason, has caused great excitement among the people.

London, 12.—Bullion withdrawn from the Bank of England, on balance, today, £200,000.

Paris, 12.—The chamber reassembled today Dejeux (republican) presided by virtue of seniority, and made a strong republican speech, provoking protests from the right.

A Business Transaction.

New York, 12.—The Evening Post says: On inquiry we find the Metropolitan National Bank, of this city, which has on deposit at the Bank of England in United States 4 per cent. bonds to secure \$2,000,000 note circulation, has taken up the bonds for the time given up its note circulation. The operation is merely a business one, as the bank clears a profit by it of over \$50,000. The bank has a capital of \$1,000,000. President Revery gives it as his opinion that if Congress would reduce the tax on note circulation one-half, it now being one per cent, bank generally would freely take bonds bearing 3.5 per cent, and would largely increase their circulation.

This Great Country.

New York, 12.—The Herald says: Barclay, member of parliament, for Forfarshire, has been traveling in Colorado, and in spite of the hostile Indians and such non-arable land as exists, he was enthusiastic in the Fortnightly Review over the natural features of the state. He says that there the English farmer will find a rich and ready soil for his industry when England and Scotland are ruined countries. It is to be hoped that Deanehouse, who has not been to Colorado, reads the Fortnightly Review, and knows that Colorado is but a single one of our many sparsely settled states.
